

SPOKANE-KOOTENAI REAL ESTATE RESEARCH COMMITTEE

The Spokane-Kootenai Real Estate Research Committee is a non-profit corporation that provides a means for developing a reliable data base of statistics and trends in real estate and related activities in Spokane County, Washington, and Kootenai and Bonner Counties, Idaho. The organization publishes a semi-annual report of its findings. In addition to important real estate statistics, these reports sometimes include feature articles on major topics affecting the region. Membership in the organization is composed of professionals in real estate, mortgage lending, economics, higher education and government. Those groups, as well as employers and real estate investors, will find this report a valuable reference tool for decision making and long range planning.
